HIGH-WAY TRANSPORT LINES TO RUN INTO C'PORT FROM LOUISVILLE

Cloverport To Be Terminal Of Union Transportation Lines. For Hauling Freight Over Highway.

The Union Transportation Lines of Louisville, a company engaged in the business of hauling freight over the highways, announce in a letter to the News that they plan to open a High-Ways Transport Line into Cloverport.

The Line is proposed to connect Cloverport and Louisville with a fleet of motor trucks. The Union Lines are now giving daily service in and out of the Bloomfield and Bardstown territories and a fleet of their trucks is also running into Shelbyville. They took over the Cotton Motor Line, which for the past two years, has been running from Louisville to Bardstown. They also bought out the Stansbury Truck Line which has been serving the Bloomfield and Fairfield territories. They have also recently absorbed the Webb Transfer Line which has been in successful operation over the highways for the past four years between Louisville and Shelbyville.

It is understood their service has been very dependable and their proposed service into the Cloverport territory should be of great value to all shippers.

DEATH IS DUE TO COMPLICATIONS

S. J. Burdette, Life Long Resident of This County Died at His Home Near Hites Run

Mr. Samuel Jolly Burdette passed into his eternal reward at 4 o'clock Saturday morning, April 3, 1920, at his home in Hites Run. His death was due to a complication of diseases.

Mr. Burdette was born Dec. 23, 1848, and always lived in Breckinridge county. He was married Nov. 12, 1874 to Miss Sarah Smith, daughter of the late Mr. and Mrs. James Smith. To this union were born three children, Miss Louella Burdette, who lived with her father until his death, Zack Burdette, of Rockport, Ind.; and Mrs. James Sahlie, of Cloverport.

Mr. Burdette became a Christian and united with the Hites Run church in 1870, where he remained a faithful member. The community has lost a truly good citizen as he was liked by every one and will be greatly missed. He was perfectly resigned to God's will and often expressed his readiness to depart this life and be with Christ which is far better. He bore his suffering patiently and heroically.

COUSINS COME TO BLOWS ON TRAIN

Ernest Luc and Walker Logsdon Engage in Fight on "Texas" No. 143, Monday.

The L. H. & St. L. train No. 143 arrived in Cloverport, Monday evening over an hour late due to a brief combat between two cousins who boarded the smoking car at Irvington. The fight occurred after the train pulled out from Irvington, and the timely arrival of the Railroad Detective C. T. Nicholas averted a serious tragedy.

The men engaged in the brief fight were Ernest Luc, of Webster, and Walker Logsdon, of Lodi, Walker knocked Luc between the seats and was carving him with a knife when the latter drew a revolver and fired. The bullet struck the end of the car and rebounded. Many passengers fell to the floor while others made a stampede to the door.

At the firing of the pistol Detective Nicholas rushed in separated the two men and prevented a second shot. The men were placed under arrest.

Luc was cut about the head and abdomen and was allowed to leave the train at Webster, Logsdon was put off the train at his home in Lodi.

Mr. William Head, who was a passenger in the smoking car, got off at his home in Lodi and fainted on the platform. The train pulled out from the station a little piece and then backed in and the trainmen made further investigations of Mr. Head's condition to see whether or not he had been injured. He is subject to heart trouble and the excitement caused him to faint.

Luc and Logsdon will be arraigned at Hardinsburg for trial.

The funeral was held Sunday afternoon at 2 o'clock at the home and the remains were laid to rest in the church burying ground.

The following brothers and sisters survive: Gid Burdette, of Cloverport, W. R. Burdette, of Hites Run, J. T. and R. C. Burdette, of Owensboro, Mrs. Bettie Arington, of Paducah, Mesdames Annie Huff and Larell Crabtree, of Owensboro, and a grandson, Jack Morris Burdette.

DATE OF FISCAL COURT CHANGED

The regular term of Fiscal Court for Breckinridge County, will convene at Hardinsburg, Monday, April 12, instead as heretofore on the first Tuesday.

MRS. WITT TO BE BURIED HERE

Died in Cincinnati, Monday A. M. at Mrs. McCracken's Home. 90 Years Old.

The remains of Mrs. William Witt will arrive in Cloverport Wednesday morning on the 10:40 o'clock train and will be taken to the Baptist church where a short funeral service will be held followed by the interment in the Cloverport cemetery.

Mrs. Witt passed away Monday morning at the home of her daughter, Mrs. Shelby McCracken, in Cincinnati. She was 90 years old, and a native of Breckinridge county, having lived many years in Cloverport. Surviving are four children: Mrs. Shelby McCracken and Mrs. Waymeyer, of Cincinnati, Mrs. Nannie Roth and James Witt, of Ludlow.

ACCEPTS POSITION IN GA.

Wm. Wroe, a machinist of the L. H. & St. L. R. R. shops resigned his position last week and left Sunday for Fitzgerald, Ga., where he accepts a similar place in the A. B. & A. R. R. shops. He has been with the local shops for nine years.

BURGLAR ENTERS NURSES' ROOM

Miss Martha Reid Awakens to Find Burglar Beside Bed. Takes Watch and Purse.

Awakening to see a man standing beside her bed, Miss Martha Reid, student nurse at the Jewish Hospital screamed aloud about midnight last night. The intruder slapped her in the face with his open hand and fled out a back door, taking with him \$7 in a purse belonging to Miss Leah Bloch, a nurse, who slept in the same bed with Miss Reid, and a wrist watch which Miss Laura Hoosier, another student nurse, had left in the room.

Hearing the screams Miss Clara Fisher, superintendent of nurses, whose room in the hospital is directly above that of Misses Reid and Bloch, ran to the front window and then to the back, where she saw a man crouching in the yard. She fired three shots from a revolver at the figure, none of which reached the mark. The man then fled.

Investigation proved that the thief had entered a side living room window and probably unlatched the back door where he made his escape before he ransacked the nurses room.

A search of the neighborhood by the police failed to reveal a trace of the burglar.—Louisville Times.

THIS WEEK DESIGNATED TO SAVE MONEY ON MEAT

The Department of Justice sets this week beginning April 5, as "Save Money in Meat Week" in Kentucky and thirteen other States. During this week an effort will be made to reduce materially the prices of the cuts of beef, pork and lamb now in heavy demand by showing consumers the advantage of turning to those equally nutritious but which cost much less.

HIS "ARCH OF ACHILLES" INJURED BY FALLING TIMBER

Mr. Joe Fitch, carpenter of the L. H. & St. L. R. R. shops, who after being off since Feb. 3rd, returned to his work last Friday and had only been working two hours when a piece of timber fell on his foot and injured his so that he had to be granted another leave. The timber hit him on the "Arch of Achilles" of his left foot. Mr. Fitch has had to be off owing to his health, and he hopes to be able to return to his work very soon.

\$1,000 DUE CITY FROM BACK TAXES COUNCIL DEFERS ACTION ON WATER-WORKS AND ROAD PROPOSITIONS

Mayor Barry is Ordered To Issue Proclamation For Clean-Up Day. City Tax Collect or To Publish Names of Delinquent Tax Payers. Called Meeting, Thursday.

OPEN AIR THEATRE TO BEGIN MAY 1ST.

J. F. Beavin Sells Out Store To Enter Picture Show Business Will Build New House.

Cloverport is to have a new moving picture show opened on Saturday, May 1st, in the same place of the LaFayette Skydome. The property of the Skydome was purchased a few days ago by Mr. J. F. Beavin, a merchant of the West End, from Julian H. Brown, and the former has sold out his store to go into the picture show business proper.

Before May 1st, Mr. Beavin will buy a new moving picture machine run by an electric motor, and he will have a contract with one of the leading film distributors of the country to furnish him with the newest and best pictures.

In the late summer or fall Mr. Beavin intends building a fire-proof moving picture show house on the Skydome lot. The building will be either concrete or brick and will be built on the modern plans for movie houses.

TO PERFECT FARM ORGANIZATION

Farmers of Breckinridge Will Hold Important Meeting in H'burg, April 10.

Farmers have a right to the cost of production. Only about twice in the past forty years has the price of farm products brought the cost of production. Take away from the farmers of Kentucky the money made in the rise of farm lands and they have worked for nothing.

Organization on the part of the farmer will establish the business of farming and assure the cost of production. We believe the farmer has the same right to returns on the capital invested as has a bank or factory. We believe the farmer has the same right to a decent wage for his labor as the same service would bring in the factory.

As is thoroughly understood the fundamental plan of the Farm Bureau movement is not a selfish one. Its plans are based solely on justice and right to every man, farmers as well as all others. This plan is not based on a dream, or a vision, or an impractical untried substance, but on actual results as secured in other states, notably, Iowa, Indiana, Illinois, Michigan, Ohio, and a number of others. The success of the movement is assured. The size of the organization in Kentucky, the amount of money necessary and available, and the scope of the work which can be accomplished are evident when it is realized that these plans have been tried out in progressive states named, where thousands of farmers have joined hands for a united, co-operative effort which has produced results far beyond their expectation.

The city council met in regular session, Monday night, and after reading the minutes of the last meeting Mayor Barry took up the usual order of business.

Reports of the City Treasurer showed only a little over \$1,600 on hand which is not any more than enough to pay off funds granted to the Federal Highway by the old council.

The Finance committee made a report stating that the tax books showed something like \$1,000 due the city from back taxes. City Tax Collector Chapin was ordered to advertise and sell all real estate if the taxes were not paid.

Picture shows, soft drinks and pool-room establishments were looked after by a new ordinance which repealed the ordinance now in force and took up the old ordinance which makes the license run \$1 to \$2 for each show payable before opening the doors. All back licenses will be collected. Cream stations were assessed a fee of \$25, and poultry and egg produce houses must pay \$100 license.

Mayor to Order Clean-Up Day.

A communication from the State Fire Marshall was read urging the Mayor to have a general clean-up. Mayor Barry was ordered to issue a proclamation and order a general clean-up day in Cloverport. City Marshall Tate was instructed to enforce the ordinance of throwing or burning old waste paper on the streets.

An application for two new street lights on the Hill was made and referred to the street committee. A new contract with the Cloverport Electric Light and Ice Co., was ordered to be made.

Important Questions Deferred.

The report of Mr. Gillig on the water-works proposition was read and deferred for further discussion at a called meeting of the council on Thursday evening, April 8.

A petition was presented asking the council to pass an ordinance compelling property holders from the depot to Whitehead's corner to lay asphalt on the Federal highway at their expense. The petition was rejected as some of the signers were not property holders, and a committee was appointed to go and see every person living along the highway and report at the called meeting Thursday night. The City Council will have to pay for the crossing which will cost about \$1,200.

Thousands of farmers have joined hands for a united, co-operative effort which has produced results far beyond their expectation.

This organization needs you. The Kentucky Farm Bureau Federation and the Breckinridge County Farm Bureau need your support. A meeting of the Breckinridge County Farm Bureau will be held in the Court house at Hardinsburg, Ky., at 4 p. m. Saturday, April 10th, 1920. You will be given an opportunity at this time to join hands with all the farmers of Kentucky and other States in perfecting an organization so strong that they will receive justice. Will you join us as a County among the leaders, or will you be listed as one of the apathetic non-progressive farmers of the State.

Breck. Co. Farm Bureau.

REVENUE ACT CHANGE AIMS TO AID ALL NEWSPAPERS.

Washington, March 30.—Print paper costing not more than eight cents a pound would be admitted tax free under a bill, amending the Revenue act, passed unanimously by the House today and sent to the Senate.

The present law fixed five cents as the limit, but members said none at that price was obtainable for import.

Representative Kitchin (North Carolina) said the bill was an emergency measure, needed to save "hundreds" of small newspapers from ruin.

WHY HAVE
"SPRING
FEVER"

Why Worry, Fret and Get
Nothing Done, Just Because
Your Blood is Sluggish?

YOUR BLOOD NEEDS
STRENGTHENING

People Nowadays Take That
Wonderful Effective Blood
Tonic, Pepto-Mangan—
Your Druggist Has It.

Really, isn't it foolish to be handicapped for weeks in the Spring, just because your blood is sluggish?

The glorious Spring days! You ought to enjoy them instead of feeling unhappy and half asleep—just too tired out for anything. You ought to be finding new vigor for your work in the Spring air—"pep" enthusiasm, happiness!

But you can't, because your blood is clogged with poisons. For long months it has had too little fresh air and has fought off many germs. And it now has heat-making properties that are not needed in warm weather.

Don't work under a handicap, when it isn't necessary at all. Clear up your sluggish blood. Give it help. Get some of that famous blood purifier and tonic Pepto-Mangan.

Pepto-Mangan is used by physicians everywhere. You can buy it at any drug store in either liquid or tablet form, just as you prefer. There's no difference in medical value.

Make certain that you get the genuine Pepto-Mangan. Ask for "Gude's" Pepto-Mangan, and see that the name "Gude's" is on the package.—Advt.

GOES TO STATE

NORMAL SCHOOL.

Miss Lillian May left Monday morning for Bowling Green where she will enter the State Normal School for the Spring and Summer taking a special course in primary work and also a business course. Miss May arrived from Harned and spent the Easter holidays with her parents, Mr. and Mrs. B. F. May, before going to Bowling Green.

BODIES OF 100 SOLDIERS TO
BE SHIPPED THIS WEEK

Brest, March 31.—The first body of an American soldier who died in France was exhumed from French soil here yesterday at the Pontanezen Camp Cemetery. The graves officials will have 100 bodies ready for shipment to America by April 5.

It is expected that the transport Antigone, which sailed from Danzing yesterday bearing homeward happy healthy Polish-American veterans of the army of Gen. Haller, will call at Brest to take the bodies aboard.

Closing sale at the Cloverport Loose Leaf Warehouse, Saturday, April 24. Parties wishing to dispose of their tobacco over the floor, will kindly have same ready by this date as this will be our last sale this season. We wish to thank our patrons for their loyal support.

TWENTY PERSONS PRAY AND
TORNADO JUMPS OVER HOME

Ft. Wayne, Ind., March 31.—Twenty persons were gathered at the country home of Charles Smith, a farmer living near Monroeville, when a tornado swept over that region Sunday afternoon, destroying almost everything in its path. In the distance they saw the funnel shape cloud approaching and saw the damage it was doing. The Smith home was directly in the path of the storm.

At the suggestion of Mr. Smith all knelt and offered up prayers. They continued praying for several minutes. The tornado came on, and when it neared the Smith home it suddenly jumped into the air, leaving the house and those in it unharmed. A few hundred yards beyond the Smith house it again descended and continued its work of destruction.

Those at the Smith home Sunday afternoon have much greater faith in prayer than they ever had before.

TO RAISE STRAWBERRIES
INSTEAD OF TOBACCO.

Hopkinsville, Ky., April 2.—With strawberry planting in progress, many farmers because of the unsettled condition of the tobacco market will raise berries this year. Nearly 1,000 acres are pledged to strawberries in this county.

A wise philosopher once said "the secret of success is being believed in."

We want people to believe in us, for we want to feel we have made a success of merchandising, and we know the secret of success in business, as in every other walk of life, is to Tell the Truth and to Act the Truth in every thing we do.

As we know our success depends on so telling the truth about prices and values that everyone will believe in us, you may depend and take our word for it, that when we say prices Are Not coming down in the immediate future, we are telling the truth.

Gingham mills are "sold up"—linen manufacturers are refusing new business for 24 months stocking mills are advertising far and wide—"Be Patient"—don't blame the retailer if you can't get stockings—we simply can't supply him—Clothing manufacturers are doing the same—and so it goes—and prices can't come down until the Law of Supply and Demand is equalized.

We're not going to preach Buy Now—Prices are Going Up—but we do say we don't see any prospect of their coming down.

FARM AND STOCK

"Plow deep while sluggards sleep," advised Benjamin Franklin and that is what every successful farmer does. Plowing deep is more important this spring than ever before. Read what our correspondent, Mr. Duke has to say about "plowing deep" this spring.

Charlie Tinius has a mill on his farm near Webster sawing lumber to build two barns, 44x60 feet. One for stock and one for tobacco. He is also building a four room cottage.

It is important that every farmer in Breckinridge county should attend The Farm Bureau meeting at Hardinsburg next Saturday.

C. W. Nelson, Lewisport had 25 acres in fine alfalfa last fall. He cut two good crops. This spring he says not a sprig of it is left. Winter freezes spewed it all out of the ground. He is resowing the same field at a cost of \$176, for seed. Alfalfa seed sell at 46 cents a pound. Mr. Nelson is a game farmer and believes in alfalfa.

Burn DeJarnette and Wise DeJarnette, McQuady, went to Louisville, Monday with 2 loads of cattle.

Arthur Beard went to Louisville, Monday. Herbert Beard is at home with a case of throat trouble.

Jim Waggoner and Hawkins Smith of Garfield and Frank Payne, of Hardinsburg were in Louisville, last week buying mules to farm with.

Vic Robertson has some closing out bargains in horses and mules.

Saturday, April 24, will wind up the tobacco sales over the Loose Leaf house here for this season.

Beard Brothers are now owners of the Hardinsburg Livery barn. They bought it two weeks ago.

Supt. Meador is giving some very important news and views in this column this week for teachers, parents and children. Study what you have to do and then do it, and good will follow. Public sentiment must get behind the schools if we want good schools.

TEN WAYS TO HELP AN ORGANIZATION.

1. Attend all meetings.
2. Be on time—always.
3. It's part of your important business—let nothing keep you away.
4. Encourage officers and workers—show your appreciation of the work they do for you.
5. Cheerfully accept office or place on a committee—it gives you an opportunity to render a service.
6. Set a good example to officers and committeemen by your faithful performance of duty.
7. Wisely and discreetly join in all deliberations and show yourself interested in other's suggestions.
8. Have the utmost confidence in your fellow workers—freely give—freely take—help.
9. Promptly pay dues—do it gladly—do it with a relish. Answer all questions promptly and courteously.
10. The stronger the organization the better for you and all—encourage new members to join.

Ten Ways to Kill an Organization.

1. Miss as many meetings as you can.
2. If you attend, don't come on time but late.
3. If the weather is not fine don't think of going.
4. If you attend be sure and find fault with the work of officers, and other members.
5. Decline all offices, as it is easier to criticise than to do things.
6. Get sore if you are not put on a committee, or if appointed, don't attend meetings.
7. If Chair asks your opinion, tell him you have none, but later tell others what should have been done.
8. Do nothing except that absolutely necessary, and when others roll up their sleeves to help matters, help because of the clique running things.
9. Delay your dues as long as you can and delay answering all letters.
10. Don't bother about getting new members—"Let George do it."

KENTUCKY WILL GET 44 CAPTURED GUNS.

Washington, March 27.—Kentucky will get forty-four captured guns and eighty vehicles in the distribution of captured war materials as ordered under the Wadsworth bill, which has passed the senate and which is now in the House Military Affairs committee it was learned today.

The war department under the bill, would distribute among states 2,197 pieces of artillery, 4,000 vehicles and 841,117 smaller articles such as bayonets, helmets and so on.

HEAR MR. MORGENTHAU ON NEAR EAST RELIEF

Tula C. Daniel

Friends, we didn't know that the eyes of New York are upon us; but even so, a personal letter to day from Mr. Henry Morgenthau, ex-counsel to Constantinople, assures us that this cause before our country is one of the most worthy with which one could be identified. He adds: "You are no doubt fully informed as to the desperate conditions that obtain in Western Asia. I merely want to congratulate you on the opportunity which you have of serving humanity and civilization. Every dollar which the generous people of your county can give to this work is sorely needed in order that actual starvation may be prevented. My deep personal interest (He has seen the suffering there and knows, Ed.) in these tens of thousands of helpless children and needy women, prompts me to call upon you and your county the very grave importance of doing all that is possible to care for its share of this burden."

Sincerely yours, Henry Morgenthau. Friends, he is a Jew—and if he so cares for these people who die rather than deny their Savior, our Lord Jesus, the Christ, how much more should we care? Let us play the part of the good Samaritan, not that of the churchmen who passed by on the other side.

Not only New York, Louisville and all Kentucky, but Heaven itself is interested in what Breckinridge county is doing in this crisis.

Our treasurer is receiving some generous responses from friends of humanity over the county. One friend sending his check and one for his wife, writes he has contributed five or six times to this cause—and says "if this does not appeal to one he is most past the stage to be moved by anything." One does reach that stage sometimes. Let us pray that not one soul in Breckinridge will so harden his heart.

Treasurer's address is: B. F. Beard, Bank of Hardinsburg. Make him glad to day, keep him busy recording your offerings. Thank you!

SOMETHING FOR NOTHING

The conversation was on profiteering and the failure of some of the newspapers to lay sufficient stress on the matter. "Why even the newspapers are profiteering," said the man who was attacking the large corporations. "They are charging, as a rule, two cents for a paper, while they are making more than ever on advertising."

One of the men who was keenly interested in paper shares undertook to enlighten the speaker. "A few facts might interest you," he said. "You are paying two cents for your paper—do you realize that the cost of the newspaper alone in that paper costs more than two cents, without allowing anything for printing. That paper you have in your pocket probably weighs from 1/2 to 3/4 of a pound. The publisher probably had to pay all the way from 4 to 10 cents a pound for the newsprint, and glad to get it at any price. You can figure it out yourself with the cost of the paper you are getting something for nothing. Another instance is the case of one of the large national weekly publications. This publication for five cents sells a magazine in which there is more than ten cents worth of good white paper."

Needless to say, the attacker of the profiteers subsided.

THE GOOD OLD DAYS.

Today it is a poor egg that doesn't bring a nickel, and butter is worth 70 cents the pound. The old-timer looks back over the years. He sighs for the good old times. Eggs were 10 cents a dozen and butter 20 cents a pound says the Miami News.

But does he really want "the good old times?" Let's see.

In those days people had parlors and didn't use 'em. Now they have living rooms and wear 'em almost out.

They lighted their homes with kerosene "hanging" lamps.

Fellows took their girls out "buggy-riding" and knew nothing of the joy of a fleet motor car.

Men were paid a dollar a day on the section, and the other day laborer, just a little above him, was paid ten dollars a week.

As some man has said, when a person had weak lungs they began to select a nice green spot in the "marble orchard" for him, and if your appendix got tangled up, they said you had inflammation of the bowels and they buried you deep.

And women wore bustles and long gummy skirts and had limbs instead of legs.

Houses were heated by stoves of one kind or another. And—bath tubs and other toilet facilities there were none. Remember those cold winter nights with the ordinary lot 220 feet long?

Yes, those were not the good old days. Let 'em keep their 10-cent eggs and their 20-cent butter. Living in 1920 is worth more than it costs, even if it costs more than it did.—Lawton (Okla.) Constitution.

SCHOOL NEWS AND VIEWS

By J. R. Meador, Supt.

Owing to the fact that the recent Legislature made many changes in the laws relating to the school system teachers are anxious to know just what has been done and what will be expected of them in the years to come and especially the ensuing year. For those who are interested in the schools and especially teachers who are making inquiries relative to certification and examinations I shall give briefly the new requirements.

No teacher holding a certificate will the expiration of the certificate now be required to be re-examined until held.

The examination for white and colored teachers will be held on the same day, but in separate rooms. The regular examinations for teachers certificates will be held on the third Friday and Saturday in May, June, and September.

All papers will be sent to Frankfort and will be graded by the State Board of Examiners, and all certificates will be good throughout the State.

The fee to be paid by each applicant will be \$2.00 and this fee will be forwarded to the State Board of Examiners. The County Examiners will receive \$4.00 per day for the two days of the examination, to be paid by the State Superintendent out of the funds derived from examination fees paid by teachers.

There shall be four grades of certificates issued to teachers in Common Schools as follows:

- a. Teacher's Diploma.
- b. State Teacher's Certificate.
- c. Elementary Certificate, first grade.
- d. Elementary Certificate, second grade.

An Elementary Certificate of the first grade shall require an average of 85 per cent on all the subjects in the Common School course, and the Science and Art of Teaching and the State Course of Study, and no subject shall be lower than 70 per cent. This certificate is good throughout the State for four years.

An Elementary Certificate of the second grade shall require an average of not less than 75 per cent on all the subjects named above, with no subject lower than 60 per cent. This certificate is good throughout the State for two years.

After July 1, 1922 applicants for Elementary certificates shall have had at least one year of high school work or its equivalent, and in addition there to, five weeks study of professional subjects in a State Normal school.

After July 1, 1924, applicants for such certificates shall have had two years high school work and ten weeks study in a state normal school.

After July 1, 1926 such applicants shall have had four years high school work and twenty weeks in a normal school.

Examinations for Common School Diploma will be held as heretofore and no person will be admitted to the County High School unless he holds such diploma. Next examination for diploma to be held May 7 and 8.

No salary paid to a teacher in a common school will hereafter be less than \$75 per month.

A census of the school children of the county is being taken this month. Let every teacher and every patron assist in getting every child between 6 and 18 enrolled in the census. If the trustee has not taken the census of your children by the last of April see him and give him the names and ages. Every child missed will deprive the county of about \$6.00 of State School Fund.

Help your trustee make it correct and complete.

With better paid teachers the public should and will demand a larger service and better qualified teachers. Teachers should, and I am very sure they will, be only too glad to cooperate in every way to help make the school system all that it should be. They have always given more largely than they have received, and I am sure that I voice the sentiment of every true teacher when I say that we will give a larger proportion of increase in qualification and service than we have received in salary.

All trustees will be instructed to see to it that every teacher gives at least six hours to actual work in the school room, and upon failure to do so he will refuse to sign the report.

The pay of teachers is not yet in proportion to the remuneration in the other professions, but the increase has come because there was a general demand on the part of the public for better salaries for teachers. Failure on the part of the teacher to live up to the opportunity would as surely create a demand for the reduction of the pay.

Schools for the past three years have been completely disorganized on account of the war and other abnormal conditions. The war is now over in fact if not in theory. Teachers this year will receive more than twice the salary received two years ago. The new compulsory attendance law will be enforced to the limit. Let's have an united effort for the best school year in the history of the State.

Get the best teacher possible to obtain, and then give all your support and cooperation to the teacher in her work. Remember a teacher is just human and will make some mistakes—you in her place might have made the same or worse. Make up your mind and get back of the teacher and support her plans.

THE HORSE AND THE MOTOR.

Even though it may be true that the motor-driven vehicle has begun to put the farm horse "on the run," there is no evidence that he has developed much speed, and his total value still compares favorably with other classes of farm animals. On January 1, 1920, the Bureau of Crop Estimates of the United States Department of Agriculture estimated the total value of horses on farms in this country at \$1,993,000,000, or just a little below the value of milk cows, which was \$2,022,000,000.

EVENTS THAT TRANSPIRED TWENTY-FIVE YEARS AGO

(o) —
Misses Lettie Scott and Jennie Warfield are visiting in Glen Dean.

(o) —
Mr. Wm. Beard will move into his new house near the court house this week.

BOTTLING UP THE WINTER RAINS.

John K. Duke.

The average annual rainfall for Kentucky is about forty-five inches. Unless the rainfall for the present year, beginning with the first of November, is far above the average, Kentucky has had more than half of its rain in the last six months. We may, therefore, expect a dry crop year. To prevent a crop failure, or at least a very short crop, it is necessary that the farmer preserve and utilize the water that is already in the ground. There are several ways of doing this: Plowing early while the ground is moist, plowing deep, and maintaining a dust mulch. Then, if we combine all of these, we will have some protection against a drought.

As soon as the ground is dry enough, the farmer should break all the ground that is to be cultivated this year. It should be broken as deep as possible, and immediately put in order. If the ground is not planted for a few days, or even weeks, it should be harrowed as soon as possible after each rain. This will keep a dust mulch on top and will be better to lessen the number of acres to be tilled and make an average crop than to have a crop failure on more acres.

Another thing that will help in a dry season is the crop arrangement. Crops that do not shade the ground, such as corn, should be planted on the dampest ground, while those that shade the ground, as tobacco, peas, etc., should be planted on higher ground.

Turning under green manure crops will also aid in maintaining moisture through the crop season. If every farmer would turn under a crop of rye in the spring, he would be more able to withstand a drought. Folks living in town should sow their garden in rye every fall.

BASHAM TO ADDRESS AD CLUB OF WORLD.

Louisville, Ky.—For the third time within six years, Thomas E. Basham, president of the Thomas E. Basham Advertising Agency, has been selected as one of the principal speakers at the annual convention of the Associated Ad Clubs of the World to be held in Indianapolis the week of June 22.

Mr. Basham will appear in the role of debater in joint debate with a prominent American newspaper publisher, yet to be chosen, their subject being, "What the Newspaper Publisher Thinks of the Advertising Agency and What the Advertising Agency Thinks of the Newspaper Publisher."

FACTS ABOUT AUTOMOBILES.

The first New York automobile show was held in 1900.

In 1898 gasoline sold for six cents a gallon.

The first four cylinder car was brought out in 1900.

In 1896 Barnum & Bailey announced that they would exhibit a horseless carriage.

In 1898 Gen. Nelson A. Miles, Chauncey M. Depew and John Jacob Astor were judges of the second automobile contest held in this country.

There were only four automobiles in the United States in 1896.

The first long distance auto tour from Cleveland to New York was made in 10 days.

The first transcontinental run from New York to San Francisco was made in two months.

A HEARTLESS WORLD

Louella C. Poole

It is a heartless world, I thought, And all for self man lives; 'Tis graft and greed on every side, And little heed he gives To the unfortunate and weak, Those sorrowing and in need,— Thus mused I as I went my way,— A selfish world indeed!

An old man limped along the street, Half blind he was and lame; Then paused he at the crowded curb, Quick to his succor came Strong arms, kind hands, and willing feet;

Not one pedestrian But offered cheerfully to help That poor old feeble man.

A pigeon fluttered to the ground, With bruised and broken wing; A little lad swift darted out, The crowd; the helpless thing.

To rescue. "Who will care for it?" I asked. He bared his head, "I'll take it to the hospital For animals," he said.

And ere my journeying was done Adown the street that day, How many were the kindly deeds I noted on the way!

O never say the world is lost To selfish and greed While willing hearts and hands still serve, And minister to need!

THE BEE'S WISDOM

Said a little wandering maiden To a bee with honey laden: "Bee, in all the flowers you work, Yet in some doth pison lurk."

"That I know, my little maiden," Said the bee with honey laden; "But the poison I forsake, And the honey only take."

"Cunning bee, with honey laden, That is right," replied the maiden, "So will I from all I meet, Only take the good and sweet."

MOST POWERFUL WIRELESS TELEGRAPH STA. IN WORLD

New York City, March 31.—The most powerful wireless telegraphic station in the world is being installed at Saigon, Indo-China, according to advices reaching the headquarters of the Interchurch World Movement, which is making a religious economic and social survey of the world. This new station will be of such magnitude that communication may be had with France, Africa, Madagascar, French New Caledonia, Australia, Japan and the United States.

The report states further, that the continuous wave system will be used and the electric power will be supplied by two converter groups, equipped with internal combustion motors of 2,500 horse power. Aerials will be suspended from a height of 833 feet, nearly 100 feet higher than the Woolworth Building, and the network of wires will be spread over nearly 180 acres.

This new station brings the world closer together by many thousands of miles, and it is expected to be of great aid to the Pacific Northwest in carrying on Transpacific business communications.

Veteran Operator Sees
Great Opportunities In
Kentucky This Spring

TAKEN FROM OIL WORLD OF ISSUE MARCH 27, 1920.

Bowling Green, Ky., March 26, 1920.

To the Editor of the Oil World—

The oil industry of Kentucky has just started in for the biggest boom that Kentucky has ever known. There are more producers coming into Kentucky—10 to 1—than came in the last year, and the big boom has not really started yet.

The roads in some places are almost impassable for travel.

I am stopping here at the Mansard hotel, Bowling Green, Kentucky, and when you see the house crowded and all their annexes crowded, and people sleeping in the halls, and getting rooms anywhere they can get accommodations, and then see the large number of automobiles that leave here early in the morning on pleasant days to go in the different directions to take the oil men, together with their superintendents, to look after their properties, one gets some idea of what may be expected when the real boom is on.

They have brought in during the last six weeks about ten or fifteen large wells in Allen and Warren counties, and as soon as the condition of the roads is such that actual work can be started, and when drilling under contracts that have now been made commences, the general public will be surprised at the number of big wells that will be brought in every week.

I do not suppose it is generally known that the Sledge wells in Allen county are the largest shallow wells in the United States, if not in the world. They have four wells that will produce over 2,000 barrels per day, and only drilled in at the depth of about 300 feet.

The writer owned one property in Allen county on which a well had been drilled for water, which was only 27 feet, and there were hundreds of barrels of oil shipped from it for five or six years. In some places you can almost dig an oil well with a posthole digger, and the public is commencing to realize that in Kentucky they can have from 20 to 60 chances by putting in 20 to 60 wells for one chance in the Texas or Oklahoma fields. If they get a dry hole in Texas or Oklahoma, it means a loss from \$20,000 to \$100,000, but in Kentucky it means a loss of only \$800 to \$1,500. And when you realize that the average is better than four oil wells out of five drilled, this is the place for a man to put his money, and the way the oil man are coming in from the other oil fields and buying leases and developing them proves their faith in it. The after it is the positive proof.

The oil development is scarcely on the surface yet in Kentucky. There are 120 counties in this state, and the writer believes, from the best information he can get that there will be nearly 100 of them as big producers in the near future as the two counties above mentioned. And when you think of the leases that were bought from \$1 to \$10 two years ago, and how some of them have since slid from \$100 to \$1,000, that were bargains at that it shows what opportunity there is for those who wish to invest in oil.

Oil that was selling last year at \$2.20 now is selling at \$3.45, and it will sell for \$6.00 before next January as the consumption of oil is fast exceeding the output at the rate of nearly 30,000,000 barrels a year; and with the increased consumption of gasoline that will be caused by the extra automobiles and tractors that will be in use, not to mention the oil-burning locomotives and steamships, the consumption in the next five years will be greatly increased.

Your friend and well-wisher,

Dr. W. W. C. Spencer.

HOW TO LOWER YOUR MEAT BILLS

Hints From the Department of Justice

Cuts That Cost Less Have High Food Value.

From Maine to California women purchase meat in practically the same way. Nine out of ten have learned for years, as do some even now, that the more expensive and most tender cuts of meat must naturally be most nutritious and that the cheaper and tougher cuts are to be discarded or left with the butcher to dispose of, not realizing if they purchase only the tender cuts, he must keep the prices high enough to cover the loss of what isn't sold. Our leading dietitians of today are teaching the women that the tougher cuts of meat are exactly as nutritious as the more tender, if not more so, because the blood is drawn

to the parts in which the muscles are constantly used.

In a beef animal of 500 pounds about 75 pounds are tender meat, the loin in the hind quarter composed of sirloin, porterhouse and single steaks and the prime ribs of the fore quarter. These two commercial cuts being the most tender are most in demand and every butcher, no matter what the locality, will tell you he has no difficulty in disposing of them. The difficulty lies in selling the cheaper cuts as well as the extra meat portions.

The greatest trouble in selling the cheaper cuts comes from the fact that women do not know how to cook them to make them palatable. A long slow cooking is the secret of converting tough meat into delightfully tender roasts or steaks. Excellent dishes may be served from flank, chuck, rump steak or neck, providing the meat is carefully seasoned, seared to seal in the juices and then cook to a delicate brown. This necessitates a moderate temperature.

Just as many tender expensive steaks are ruined in cooking by keeping on the fire too long; tougher ones are condemned because of the lack of the proper cooking. Whereas a long slow cooking will ruin a porterhouse, it only adds to the excellent qualities of a rump or round steak.

For every meat animal handled there is a heart, liver, kidney, tripe, tongue, sweetbread, tail and head to be used. We know that an animal has to have a neck, fore and hind shanks legs and shoulders to hold together the choice loin and ribs.

What is true of the cuts of beef is likewise true of other meats.

Beef a la Mode.

Three pounds of either of the following cuts, chuck, brisket, rump, neck or hanging tenderloin will make a splendid dish treated as follows: Crush half a dozen kernels of black pepper with as many cloves. Rub this well into the meat. Skewer or tie the meat together as for a pot roast and put into a crock with one small onion, sliced, one sliced carrot, a bit of thyme and three bay leaves. Add a cupful of vinegar and water enough to barely cover and let stand in a cool place for 24 hours. When thoroughly marinated, remove the meat from the liquor and sear on all sides in a pan of hot vegetable shortening. Sprinkle a tablespoonful of flour over the meat and gradually pour the liquor and seasoning, adding salt, over the meat. Add a pint of boiling water. Allow all to boil up, then set to simmer until meat is done, turning frequently. When beef is done, strain the remaining liquid and add cooked carrots, turnips and small onions. Let cook three minutes and pour over the meat. Serve with plain boiled potatoes.

PHILIPPINE PINEAPPLES SUPERIOR TO HAWAIIAN.

New York City, Mar. 31.—The Abucay Pineapple Plantation at Abucay, Bataan, in the Philippines, has developed a plantation of pineapples covering more than thirty hectares, on twenty hectares of which fruit will be gathered this year, from May to the first week in August.

This is a new industry in the Philippines, but has reached the stage where, its owners say, a success is assured. The quality and quantity of pineapples yielded are superior to those of Hawaiian plantations, where fortunes have been made in the pineapple canning industry. The fresh fruit market will be catered to first, but the company is also prepared to can its product.

CHAIN OF AMERICAN HOTELS FOR ORIENT.

Shanghai—Announcement has been made that an American corporation has been formed for the purpose of constructing a chain of large hotels in important cities of the Far East, among them Shanghai, Manila, Hongkong, Singapore and Yokohama. The hotel at Yokohama is to be the first built, and plans are now under way for its construction. It will have all the modern conveniences of the best American hotels.

120 STUDENTS PLEDGED AS MISSIONARIES.

One hundred and twenty students from six States headed the call for Christian service and pledged themselves as missionaries in foreign fields at the Baptist Students Congress held in Louisville, Thursday of last week. Half of this number of volunteers are students in Southern Baptist Theological Seminary and in the Women's Baptist school of Louisville. Others are students in seminaries in Tennessee, Alabama, Mississippi, Illinois and Missouri.

MEREDITH, NEW SEC. OF AGRICULTURE SAYS U. S. IS GOING TO STAY DRY.

Mr. E. T. Meredith, who has recently been appointed Secretary of Agriculture, publisher "Successful Farming," from which we clip the following significant editorial.

"We have no apologies or regrets for the part Successful Farming took in the campaign to make booze an unlawful drink. We rejoice that the United States is dry—or speedily going dry. There will be some bootlegging and moonshining, of course, just as there are some murders and robberies in spite of the age-long years that these have been outlawed, but on the whole the country will be to all practical purposes dry.

"Never before has there been such Christmas buying as this season. Never before have the calls for charity been so few in the poor districts of the large cities, in spite of the extremely high prices for everything and the scarcity of coal.

"There are two answers to the why of it: General prosperity due to high wages. But high wages alone will not do it. Labor is continually complaining that wages are not sufficient to pay the increased prices. The foundation cause is the same cause which put the Iowa inebriate hospital out of use—lack of booze.

"A dollar spent for booze does not pay for groceries and other necessities. The higher the pay the more the booze is bought. His family benefited little or none. Iowa took care of her 'booze-fighters' in a hospital for inebriates. When there ceased to be drunks, the hospital closed. When the workman's dollar could not be spent for booze, it went for family necessities. Every merchant will tell you that more families now pay for what they get than ever before. The country has gone dry. After a fair trial of prosperity and happiness without making fools of ourselves under the influence of booze, the United States are going to stay dry."—Successful Farming.

TWO MOST POPULAR MOVIE STARS ARE MARRIED.

Mary Pickford and Douglas Fairbanks, two of the most popular moving picture stars in the world, were married in Los Angeles, Calif., Sunday, March 30. Each have been divorced. Mrs. Fairbanks, obtaining her's just recently. The salaries that Mr. and Mrs. Fairbanks make as movie stars are said to be enormous.

WARRANTS AGAINST STATE TOTAL \$3,270,950.60

Frankfort, Ky., March 31.—Outstanding warrants on the Treasurer of Kentucky amounted to \$3,270,950.60 today and the cash balance in the treasury \$583,932.27, which was distributed as follows:

General expense fund, \$309,388.37; school fund, \$116,506.77; sinking fund \$17,318.85; road fund, \$140,768.28. Checks were sent out previously to the University of Kentucky for \$3,906.39 and to Eastern State Normal and Western State Normal each \$2,109.43, leaving no balance for those institutions in the treasury.

HER INCLINATION.

"How about your poem, Vanessa?"
"The editor returned it with regrets."
"Regrets?"
"Yes; with so many regrets that I feel tempted to send it to him again."

Bred Gilts for Sale

BRED TO FARROW IN APRIL

When you can save all the pigs, these gilts are good individuals of the very best breeding that I have been able to buy at any price, and bred to a son of Black Price the 1918 Grand Champion of the world and Big Uncle Sam by Big Buster by Giant Buster, The Epoch Maker, the latter hog is the largest boar that I have ever seen for his age and I have looked over some of the very best ones. These hogs are priced right, regular breeders stuff at farmers prices that we can all afford to pay.

If you want a herd boar that will put you in the limelight, a real boar, a son of Black Price, this is breeding that you cannot find anywhere else at three times the price that I am asking for him a great pig for some one that needs him at a bargain. This pig is right for hard service about eleven months old.

Ford
THE UNIVERSAL CAR

The Ford Sedan, with electric self-starting and lighting system and demountable rims with 3½-inch tires front and rear, is a family car of class and comfort, both in summer and in winter. For touring it is a most comfortable car. The large plate glass windows make it an open car when desired, while in case of rain and all inclement weather, it can be made a most delightful closed car in a few minutes. Rain-proof, dust-proof, fine upholstery, broad, roomy seats. Simple in operation. Anybody can safely drive it. While it has all the distinctive and economical merits of the Ford car in operation and maintenance. Won't you come in and look it over?

LALLEY LIGHT and POWER

It is Costing You Money Not to Have a Lalley

It is an actual fact that any farmer is losing money by not having Lalley Electric Light and Power. You lose money in the comfort and convenience which the Lalley would give you and your family. You lose money in the time the Lalley would save in the farm work. You lose money in the labor the Lalley would actually save. All these things are worth money; and if you do not economize in them, you are the loser. The Lalley IS an economy. It DOES pay for itself by what it saves. It IS an investment, not merely an expense. Thousands of Lalley-Light owners know these things are true, and they have said so over and over again. There can be no doubt now, after ten years of use, that the Lalley plant is right. Neither can there be any doubt that it does its work with extraordinary efficiency and extraordinary economy.

Lalley-Light is a complete unit—engine and generator—with 18-cell storage battery. It supplies ample electricity for lights, water pump, washing machine, sump, cream separator, fanning mill, iron, etc.

"Let's top it off with a good smoke"

—Chesterfield

NOTHING touches the spot like a good smoke—and nothing can touch Chesterfields for genuinely "satisfying" body and flavor.

In Chesterfields the finest of silky, aromatic Turkish and rich, mellow Domestic tobaccos are blended to bring out a new and finer quality of flavor.

Now you know why Chesterfields "Satisfy!" And because this blend is exclusive and cannot be copied, only Chesterfields can "satisfy!"

Each package is wrapped in moisture-proof, glassine paper that keeps all of the original flavor intact.

FORMER SHERIFF INDORSES TANLAC

"Money Couldn't Buy the Good It Did Me," Says Hon. A. R. Anderson.

"Money could not buy the good Tanlac has done me, and I gladly recommend it for what it has done in my case," said Hon. Archie R. Anderson, of Houston, Texas, Ex-Sheriff of Harris county, recently. Mr. Anderson is unquestionably, not only one of the best known, but one of the most popular men who ever held public office in the state of Texas. After serving as Deputy Sheriff of Harris county for twelve years, Mr. Anderson was elected Chief of Police of the city of Houston. He had occupied this office only a short time when the Sheriff of Harris county died. Mr. Anderson's friends persuaded him to make the race for the unexpired term of Sheriff to which he was easily elected. He was honored with re-election seven different times and served the people in this important office for fifteen consecutive years. Then Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of that interesting and prosperous city.

"I was in a run-down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night and never felt like getting up in the mornings. I was so tired. I had the worst form of indigestion, suffered all the time from gas on my stomach and was continually heaving up undigested food. I had to take my coffee without sugar as when I drank it with sugar, I would just heave for hours. I would bloat and swell up like I was poisoned and suffered with neuralgic pains of the worst sort, and nothing seemed to help me only in a temporary way. I just can't tell you how I did suffer for the past four years and up to the time I began taking Tanlac, a few weeks ago.

"When I read the testimonials of some who had been relieved of troubles like mine I just felt like I couldn't make a mistake by taking Tanlac and it has done even more for me than I had expected. I began to feel better after taking my first bottle and have just now started on my third and I'm a different man already. I sleep like a log now and eat just any and everything I want with out the slightest discomfort afterwards. I am glad to endorse Tanlac because it does the work and I'm telling all my friends just what I'm telling you. I never felt better in my life than I do since taking Tanlac. I am willing for you to publish my statement and

let every suffering person who may wish, benefit by my experience with this great medicine." Tanlac is sold in Cloverport, at Wedding's Drug Store.—Adv.

SOME THINGS TO DO FOR THE TRACTOR.

There are some things you should do for the tractor every day, some things you should do every week and other things that should be done at least once a month and once a year if you want your tractor kept in smooth-running condition. They will not take much time if attended to promptly and will mean the saving of much time in keeping the tractor in perfect condition.

Some of the things you should do each day are: Follow out the oiling schedule as enjoined for each day; clean the tractor with rags; drain radiator in cold weather; make inspection for worn, heated or loose parts, nuts and bolts. Once a week the following should be given attention: Make inspection of all parts of motor. Make only such adjustments as are absolutely necessary and make them with the greatest care. When using kerosene drain crank case, wash with kerosene, replace with fresh oil. See that transmission has sufficient oil. Every month examine valve and valve adjustments and clean carbon from the cylinders. Then once a year, before the busy season comes on, thoroughly overhaul the tractor and make renewals and order all additional parts and supplies that are likely to be needed for the year.

WARNS NATION OF RED PERIL

U. S. Department of Justice Urges Americans to Guard Against Bolshevism Menace.

CALLS RED PLANS CRIMINAL

Press, Church, Schools, Labor Unions and Civic Bodies Called Upon to Teach True Purpose of Bolshevik Propaganda.

Washington.—Calling for the patriotic support of all true Americans in its fight to protect their homes, religion and property from the spreading menace of Bolshevism, the United States Department of Justice has issued a warning against the insidious propaganda of the "Reds" during the new year. It reads:

"It would be extremely helpful to the cause of good government, the maintenance of law and order and the preservation of peace and happiness in our country if the people on this New Year's day would resolve to study, understand and appreciate the so-called 'Red' movement. They can counteract it most effectively by teaching its purpose through the press, the church, the schools, patriotic organizations and labor unions, all of which are within the range of its insidious attacks.

"Red" Theories Criminal.

"The 'Red' movement does not mean an attitude of protest against alleged defects in our present political and economic organization of society. It does not represent the radicalism of progress. It represents a specific doctrine—namely, the introduction of dictatorship the world over by force and violence. It is not a movement of liberty-loving persons, but a distinctly criminal and dishonest movement. Lenine himself made the statement at the Third Soviet Conference, 'Among one hundred so-called Bolsheviks there is one real Bolshevik, thirty-nine criminals and sixty fools.' It advocates the destruction of all ownership in property, the destruction of all religion and belief in God. It is a movement or ganized against Democracy and in favor of the power of the few built by force. Bolshevism, syndicalism, the Soviet Government, sabotage, etc., are only names for old theories of violence and criminality.

Russian Labor Crushed.

"Though their adherents in this country are advocating and fomenting strikes, Lenine and Trotsky forbid strikes, and trade unions are being broken up and completely subordinated to the will of the few demagogues in control in Russia. This Bolshevik experiment on the living body of the Russian people has not proven in any sense of the word an experiment in Democracy. The Bolshevik leaders frankly repudiate democratic principles as we understand them. It has been a gamble which meant for Russia, and, indeed, for the whole of humanity, enormous losses in lives as well as in material resources. The Bolsheviks have run up a colossal bill which the Russian workmen and peasants will have to pay.

"Reds" Menace America.

"Having lived at the expense of the Russian people for two years, those speculators in human lives and other people's earnings are trying to move to new fields to the east and to the west, hoping to take advantage of the economic distress and confusion of mind in which humanity finds itself after the terrible strain of five years of war.

"Its sympathizers in this country are composed chiefly of criminals, mistaken idealists, social bigots and many unfortunate men and women suffering with varying forms of hypersthesia. They are enemies of the government, of the church and of the home and advocate principles which mean the abolition of all three of these safeguards of civilization.

Would Rob Everybody.

"Twenty million people in this country own Liberty Bonds. These the 'Reds' propose to take away; 9,830,000 people in the United States own farms and 3,338,000 more own homes, which they would forfeit; 11,000,000 odd people have savings accounts in savings banks and 18,000,000 people have deposits in our national banks, at which they aim. There are hundreds of thousands of churches and religious institutions, all of which they would abolish. In other words, 110,000,000 hard-working and saving people who own property, love liberty and worship God are asked to abandon all the ideals of religion, liberty and government, which are the outcome of the struggles of their fathers and their own development, and to place themselves, their homes, their family and their religious faith in the keeping and their property under the domination of a small group of Lenine and Trotskys.

Protection Promised.

"This department, as far as existing laws allow, intends during the forthcoming year to keep up an unflinching, persistent, aggressive warfare against any movement, no matter how cloaked or disguised, having for its purpose either the promulgation of these ideas or the excitation of sympathy for those who spread them. The movement will not be permitted to go far enough in this country to disturb our peace and well-being or create any widespread distrust of the people's government. It will fall away before the light of popular knowledge and appreciation of its aims and purposes."

Miss Baldrige is the attractive daughter of Mr. and Mrs. J. D. Baldrige, of Louisville, who spent the winter in Cloverport, and visited her parents here during the Christmas holidays.

MEAT EXPORTS ON INCREASE

The exports of domestic meats and meat products from this country totaled 3,333,000,000 pounds for the year 1919, a quantity, without regard to kinds of meat, as great as prewar annual consumption of meat in France; three-fifths of that of the United Kingdom; one-half as much as that of former Russia, not including Poland; twice as much as that of Italy, and 45 per cent of that of former Germany. For the year ending June 30, 1917, the total exports in pounds of meat products was 1,950,000,000. In the year 1918 the total rose to 2,216,000,000 pounds. In 1919 exports amounted to the largest in the history of the industry, according to the Bureau of Crop Estimates of the United States Department of Agriculture.

THOUGHTLESS

"Your Honor," said the arrested chauffeur. "I tried to warn the man, but the horn would not work."

"Then why did you not slacken speed rather than run him down?"

A light seemed to dawn upon the prisoner. "That's one on me. I never thought of that."—D. & W. Chats

WOOL PRICES ON DECLINE.

Since November, 1918 the prices of wool have declined in comparison with the same month of the preceding year. The highest average price reached was 60 cents per pound in March and April, 1918, since which time the prices fell to as low a figure as 47.9 cents in April, 1919. In January, 1918, the average price was 58.1 cents; January, 1919, 55.2 cents; and in January, 1920, 53.3 cents. The producers' price of 16.7 cents per pound in 1913 advanced to 38 cents in 1918, and fell to 51 cents in 1919. These figures are in accordance with reports received by the Bureau of Crop Estimates of the United States Department of Agriculture.
